

TECHNOLOGIES PUBLICIZED

Industrial Controls

PLC/CNC/PC-based

Manufacturing Technologies

Industrial robots and tooling
Metalworking – all types
Cutting tools
High speed machining
FRP and CFRP composites
Fiber placement
Die/mold manufacturing
Assembly/inspection
Stamping
Fineblanking
Laser cutting
Metal forming/fabricating
Powder & other coating technologies
Deburring
Press brakes & shears
CAD/CAM
Additive manufacturing
Workholding devices
Plant monitoring software

Environmental control

Electrostatic precipitators
Bag houses/cartridge filtration
Scrubbers & mist collectors
HVAC systems and controls
Heat recovery systems
Clean rooms
Sound enclosures
Site remediation

Sensors

Proximity
Optoelectronic
Magnetic field
Magnetostrictive
LVDTs
Capacitive
Laser sensors
Linear/rotary encoders

Factory Automation

Industrial robots
Transfer lines
Flexible manufacturing
Controls/software

Mechanical components

Clutch brakes
Hydraulics/pneumatics
Fluid handling valves/actuators
Servo systems of all types
V-belts
Turbomachinery couplings
Torque monitoring

Precision measurement

CMMs
Laser interferometry
Particle analyzers
Form/surface measurement
Gages
SPC practices
Machine calibration
Controls/software

Miscellaneous

Machine & system design
Rail transportation systems
Electrical contracting
Mobile target ranges
Computerized security systems
Vortex tubes
Compressed air flow amplifiers
Static elimination
Infrared imaging

Medical technology

Mobile imaging
Dental crowns
Medical product design

Plastics processing

Injection molding
Blow molding
Extrusion
Auxiliary equipment

Packaging

Cartoning systems
Case packers
Stretch/shrink wrap systems
Strapping
Gluer systems

Material handling

Conveyors – all types
Conveying systems
Bulk systems
Ergonomic manipulators
Palletizers/de-palletizers
Warehouse/distribution systems
AS/RS
Product ID
